

February 16, 2010

Dear WAGIC Colleague,

Attached is the agenda for our February 2010 meeting.

This month's WAGIC meeting covers a range of topics on interest to WAGIC members. We begin the meeting with three presentations. The first is entitled "Update on Multi-Net Product and Enterprise License Structure for State Government," by Mark Fiorentino, Sr. Segment Manager, TeleAtlas. The second presentation by Dan Miller, GIS Supervisor, covers the Department of Military's Facilities Management system. The third presentation by Marcia Marsh, Law Enforcement Analyst, covers "Washington State Patrol Grant Project (DDACTS) and GIS Usage in WSP."

Next, Joy Paulus will provide updates on Broadband Mapping and the GIS Strategic Planning efforts. Following Joy, Tami Griffin will update us on WA Trans Data Coverage.

We will conclude our meeting with our usual site roundtable, which is your opportunity to bring up issues or events of interest to the group.

The usual videoconference sites will be available for this meeting (please see site list below) and will also be available via WebEx for those who can't make it to a video conferencing facility. For the latest information concerning WAGIC please visit the website at <http://wagic.wa.gov>.

Available sites:

Bellingham: Western Washington University – tbd - contact Gene Hoerauf at: ghoerauf@comcast.net

Olympia: Forum Building, DIS Boardroom 2nd Floor – contact Joy Paulus at: joyp@dis.wa.gov
